

All-Safe(TM) Diaphragm Rupture Management

Safe fluid handling is vital when handling hazardous or corrosive media. The new All-Safe™ DRM provides two layers of protection, an early warning sensor and a critical leak detection sensor. Both can trigger alarms and a pump shut off.

The All-Safe™ DRM - (Diaphragm Rupture Management) allows for safe fluid handling by detecting any diaphragm failure in your diaphragm pump.

The system provides two layers of protection:

Early Warning Sensor: installed between the PTFE overlay and the backup diaphragm. This sensor detects a leak if the PTFE overlay becomes compromised and before the backup diaphragm is compromised and hazardous fluid enters the air section.

Critical leak detection sensor: is installed in the air section itself. Should both diaphragms become compromised this sensor will detect fluid in the air section.

Both the early warning and critical sensor can be configured to take a variety of actions should a leak be detected, such as

- Warning Light
- Audible Alarm
- Pump Shut-Off

The All-Safe™ DRM is powered by 120VAC. The signal cord is available in 5, 10, 15 or 20 ft lengths.

The DRM is available for all pump models between 1/2" and 3".

Part No.	Description
DRM-NAN-NNN-05	All-Safe DRM/Early Warning Alarm: Audible/Critical Alarm: None/5ft Cable
DRM-NAN-NNN-05	All-Safe DRM/Early Warning Alarm: Audible/Critical Alarm: None/5ft Cable
DRM-NAN-NNN-10	All-Safe DRM/Early Warning Alarm: Audible/Critical Alarm: None/10ft Cable
DRM-NAN-NNN-15	All-Safe DRM/Early Warning Alarm: Audible/Critical Alarm: None/15ft Cable
DRM-NAN-NNN-20	All-Safe DRM/Early Warning Alarm: Audible/Critical Alarm: None/20ft Cable
DRM-NAN-NNP-05	All-Safe DRM/Early Warning Alarm: Audible/Critical Alarm: Pump Shutoff/5ft Cable
DRM-NAN-NNP-10	All-Safe DRM/Early Warning Alarm: Audible/Critical Alarm: Pump Shutoff/10ft Cable
